#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Regarding claim 6, Rana et al. teaches a first resistor on the circuit board (20); a second resistor on the circuit board (20); and a heat conductive material attached to both the first and second resistors and to a surface of a package containing the integrated circuit (42), wherein the heat conductive material is configured between the integrated circuit and the circuit board (column 3, lines 33-34); and wherein the heat conductive material comprises a metal ribbon (32 and 34).
